

**Universidade do Minho**  
Rectorate

**Order**  
**RT-32/2005**

The Order RT-08/2004 of 18 February defined and determined the implementation of the Graphic Identity of the University of Minho, as well as a set of graphic standards.

The need to adapt the various documents and graphic materials produced by the University to the defined standards results from the definition of a new graphic identity, as well as the need to strengthen internal and external recognition of the University of Minho.

The importance of adopting a consistent and easily identifiable graphic identity is particularly relevant to the documents associated with the developed scientific activity, with particular emphasis on Master's and Doctoral Theses.

Thus, after consultation with the Academic Council and School Presidents, I hereby determine the adoption of the "Formatting Guidelines for Master's and Doctoral Theses of the University of Minho", annexed to this order.

University of Minho, 14 June 2005

The Rector  
A. Guimarães Rodrigues
